## SUMMARY

Audio Editor, Sound Designer, and Music Producer with 20+ years of experience editing, mixing, and designing impactful audio across music, film, TV, educational media, and short-form digital content. Expert in Pro Tools, Adobe Audition, Logic, and full post-production workflows. Skilled in dialogue cleanup, noise reduction, SFX layering, Foley, multitrack editing, mastering, and synchronizing sound precisely to picture.

A multi-instrumentalist, composer, and ASCAP-affiliated songwriter with advanced technical abilities in restoration (RX), mastering (Ozone, FabFilter etc.), and emotion-driven audio design. Background includes producing nationally broadcast performances, mixing commercial releases, directing ensembles, and managing large-scale creative projects with precision and consistency. Known for a creative-yet-technical approach, strong collaborative instincts, and the ability to bring storytelling to life through sound.
